Part 1: Demographics

'About You'

Q1: Which village? There was an even split across the four villages, with a total of 410 responses, from a total mail out of 1250. This gives a return rate of 32.8% across the four communities. The results can therefore be taken as representative of the population; however, the age ranges are skewed towards more older residents.

Q2: Age: Respondents under the age of 40 make up less than 10% of overall number of people who took part in this survey. This will be for a variety of reasons, but it should be kept in mind when looking at the data that the opinions of younger generations and those with young families are underrepresented.

Q3: Length of time living in the area: Around half of respondents had lived in the village less than 20 years. Of that, around 15% had been there five years or less. 28% (just over one in four) had been there between 20 and 40 years, and 14% had lived in their village more than 40 years.

Q4: Do you work in the village? The commonest answer was n/a – by which we can assume the individual is retired or not in paid work. These combined with those answering 'no' came to just over 80%. The remaining people who listed where they worked predominantly worked in King's Lynn.

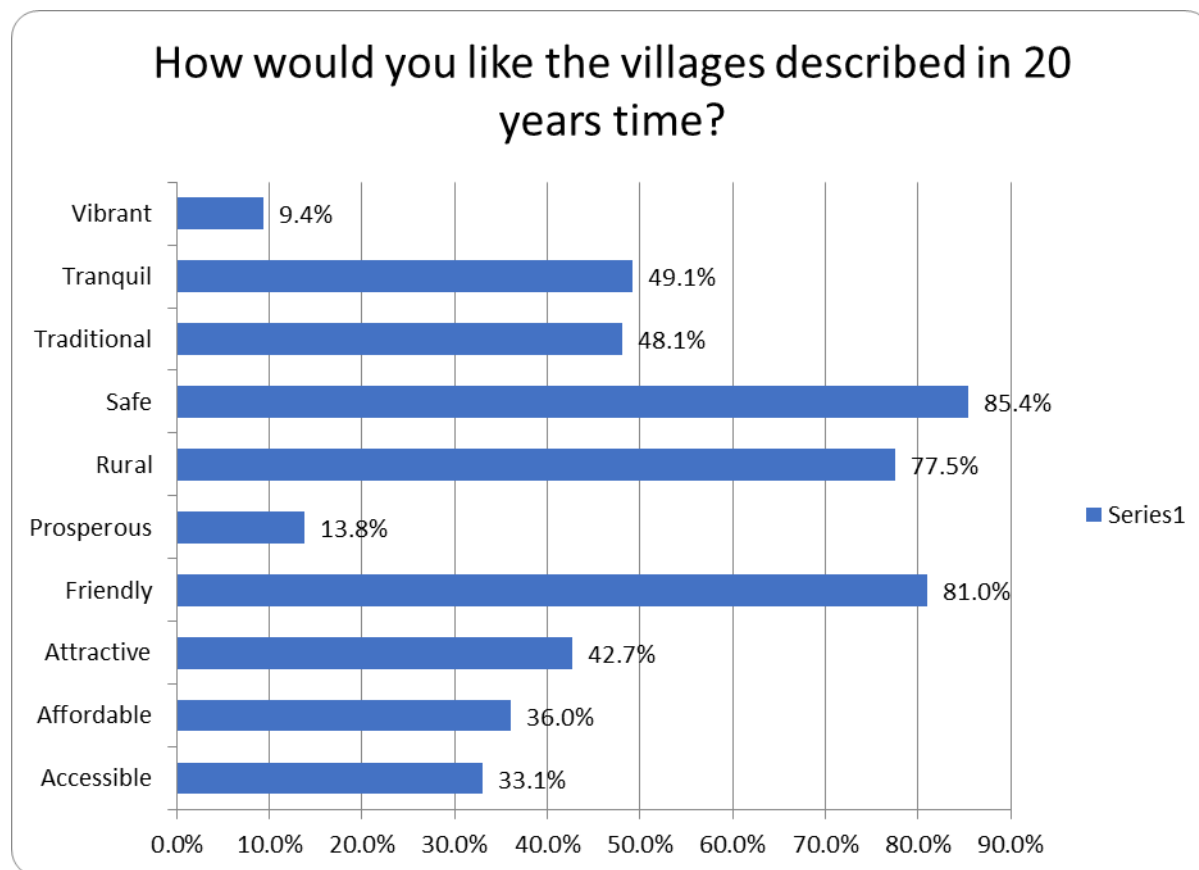

Q2.2: What did people DISLIKE

Of the 335 comments logged, traffic (volume, speed, pollution and bad parking), the threat of more development and the impact on village life and amenities, along with poor broadband speeds were aspects people disliked or were concerned about.

Q2.3: How did people want the villages described in 20 years' time?

- **SAFE** topped the bill at over 85%, closely followed by **FRIENDLY** and then **RURAL**.
- **VIBRANT** and **PROSPEROUS** were the least favoured descriptors.

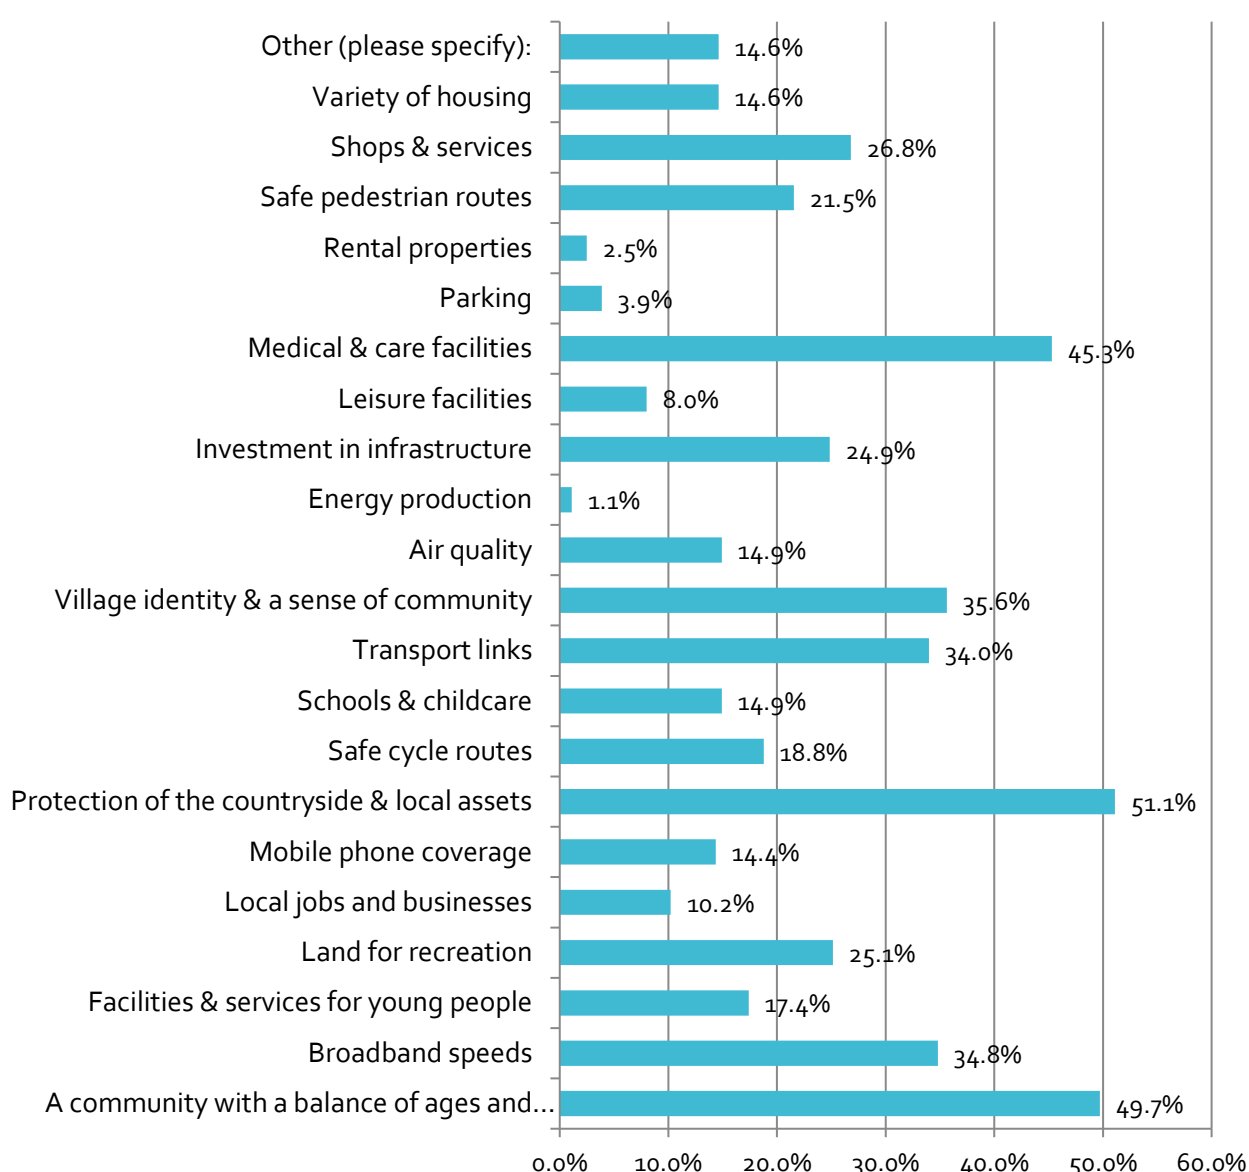

Q2.4: What were perceived as being the biggest benefits that development could bring to the community?

A community with a balance of ages and incomes and protection of the countryside and local assets were both picked by around 50% of respondents. This was closely followed by medical care and facilities and broadband speeds.

Energy production, parking and rental properties were perceived as being the least important benefits.

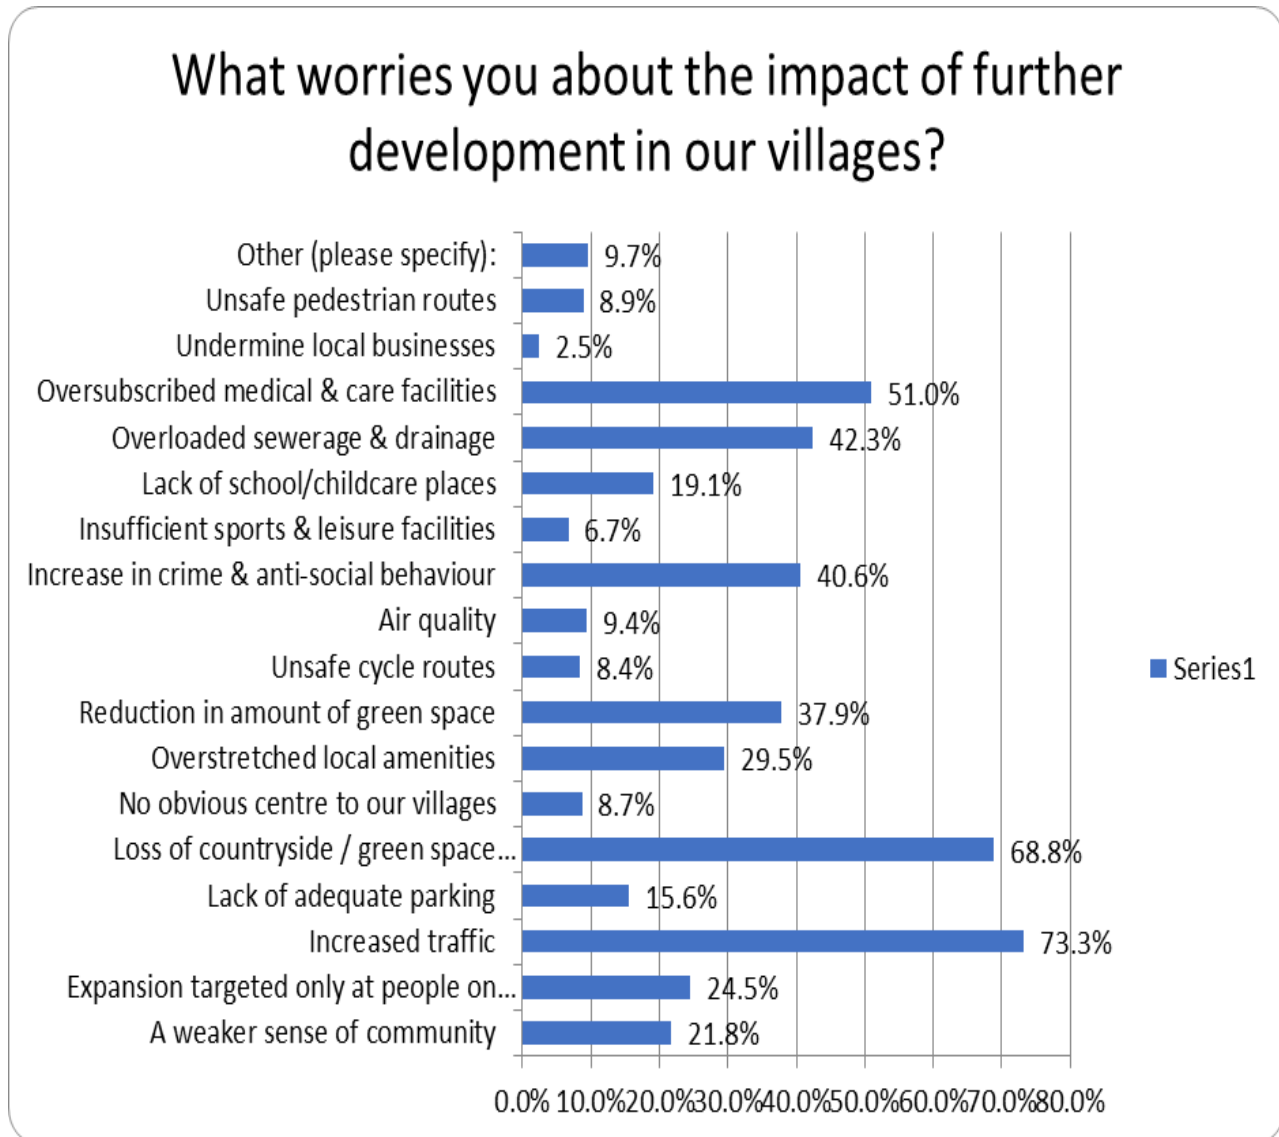

What do you think the biggest benefits development could bring to our villages are?

Q2.5: What worried people about the impact of further development?

Increased traffic topped the list at over 70%. This was closely followed by loss of countryside/green space between existing settlements (69%) and oversubscribed medical facilities (51%)

Air quality, unsafe cycle routes and no obvious centres to the villages less worrisome impacts of development.

Q2.6: What single change would most improve your quality of life as a resident of our villages?

Over 200 comments were logged, and they were mostly around the following themes:

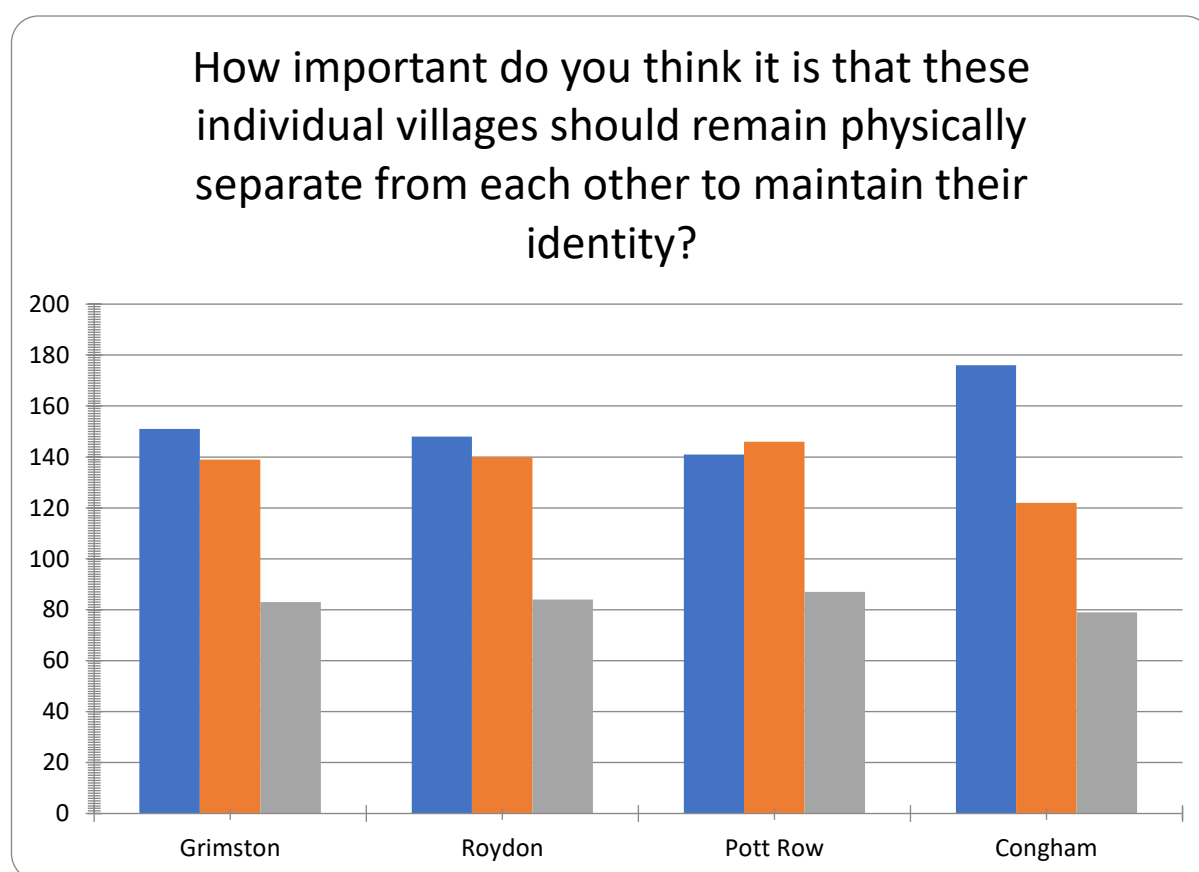

- Improve mobile and broadband signal
- Better drainage and sewerage
- Better roads and pavements;
- Ensure development is limited
- Improved public transport timetables and routes
- Enhance safety for pedestrians and cyclists.

Q2.7: Virtually everyone agreed that a rural feel and access to the countryside is fundamental to quality of life and community identity.

Q2.8: How important is that the individual villages remain physically separate from each other to maintain their identity?

NB: in the chart below, blue is 'essential', orange is 'important', and grey is 'unimportant'

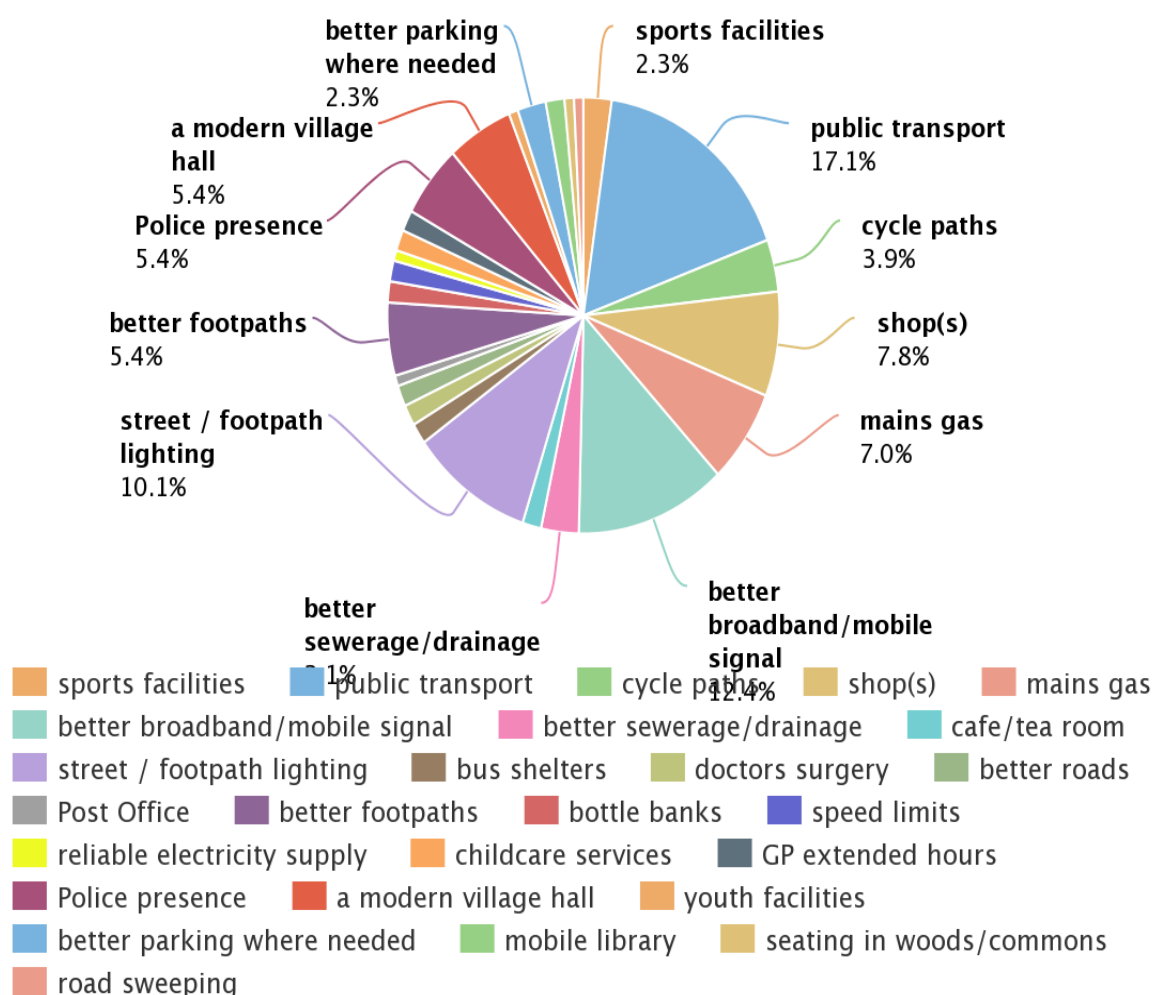

It was felt to be essential/important by the majority of respondents. Congham scored the highest in 'essential' and lowest in 'unimportant', so can be taken as the village perceived as most important to retain its separate identity.

Q2.9: What services did respondents feel was lacking?

Of the 307 answers logged, mains Gas, a better bus service and better broadband/mobile signal were popular answers. Extended opening hours at the GP, a mobile library, a garage, an NHS dentist and safer footpaths and cycle routes were also listed.

A police presence would be welcomed by many, as would a modern village hall/community centre. Failing this, a 'hub' where people could meet – for example a café or tearoom.

Q2.10: Sport and Leisure most used IN the village

The village hall topped the list, followed by Hudson Fen, playground, cricket pitch and churches. Walking (footpaths), local events, football at Holly Meadows and Horse Riding also featured.

Q2.11: Sport and Leisure most used OUTSIDE the village

Lynn Sport, swimming, golf, gym, bowls, tennis, theatre and a choir were all activities listed outside the villages. Trips to the cinema, Sandringham and various clubs in neighbouring villages were also listed.

Q2.12: NEW sports and leisure facilities wanted in the village

A new village hall, leisure centre or community centre was the most popular .

Others listed included Tennis Courts, Cycle Tracks, a Social club, bowling green, all weather gym. Clubs suggested included 5 aside football, gymnastics and old time dancing.

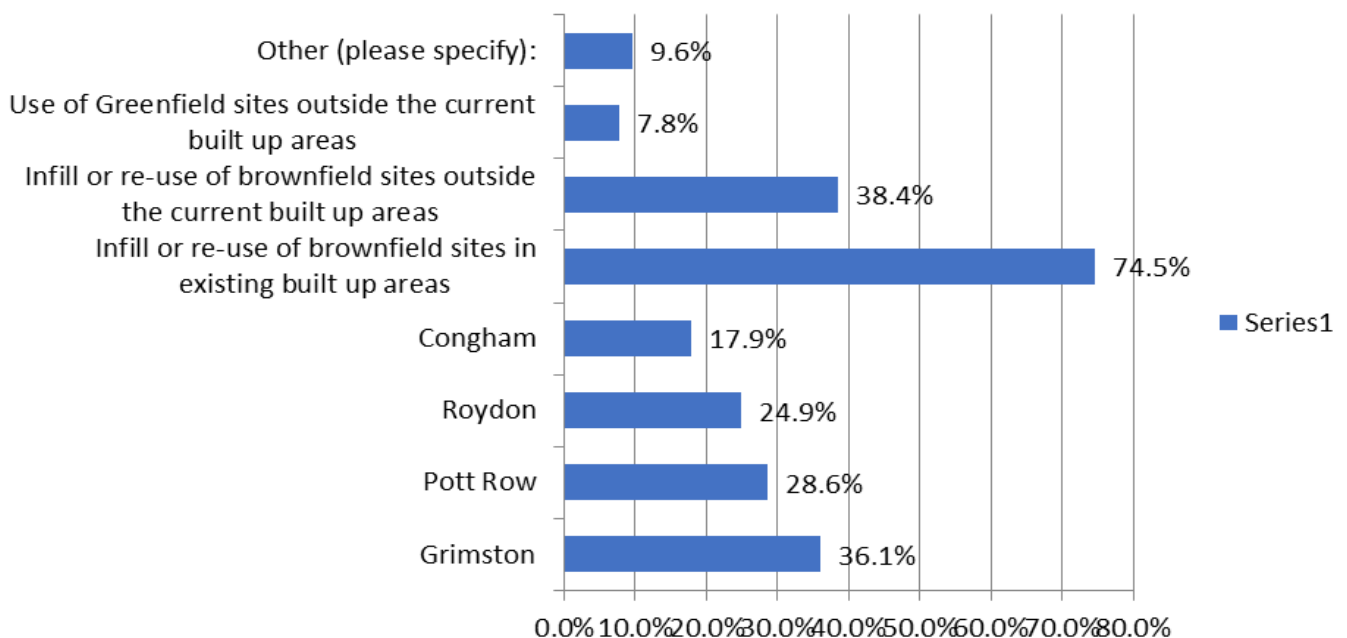

The responses to the above open questions have been listed in a separate document for the NHP Group to analyse in due course.

Part 3: Housing development

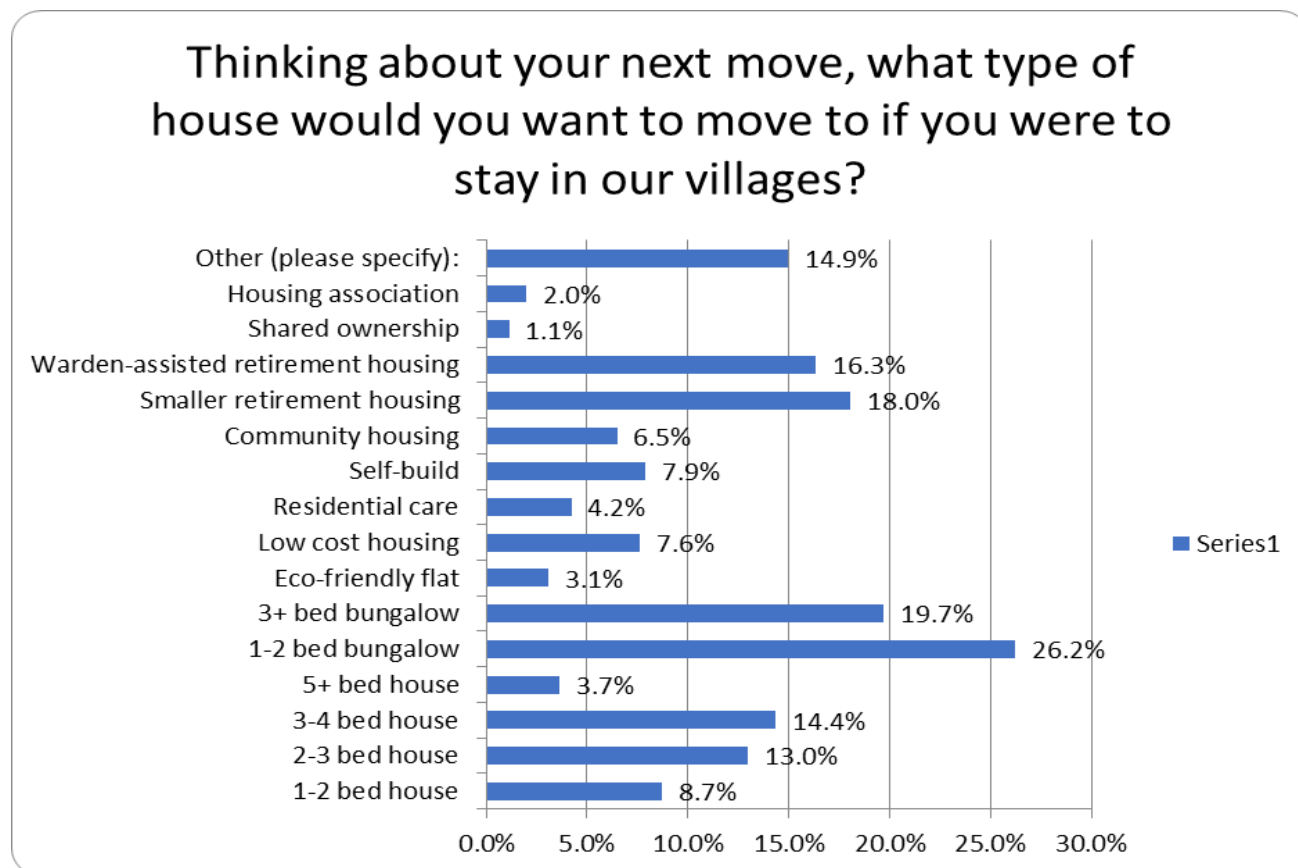

Q3.1: Where did respondents think development should be in the villages?

Infill or re-use of brownfield sites in existing built up areas was the most popular option

Thinking about the sustainable development of our villages over the next 20 years, where do you think the priority in house building should be in our villages?

Q3.2: What type of housing would people wanting to stay in the village considering moving to?

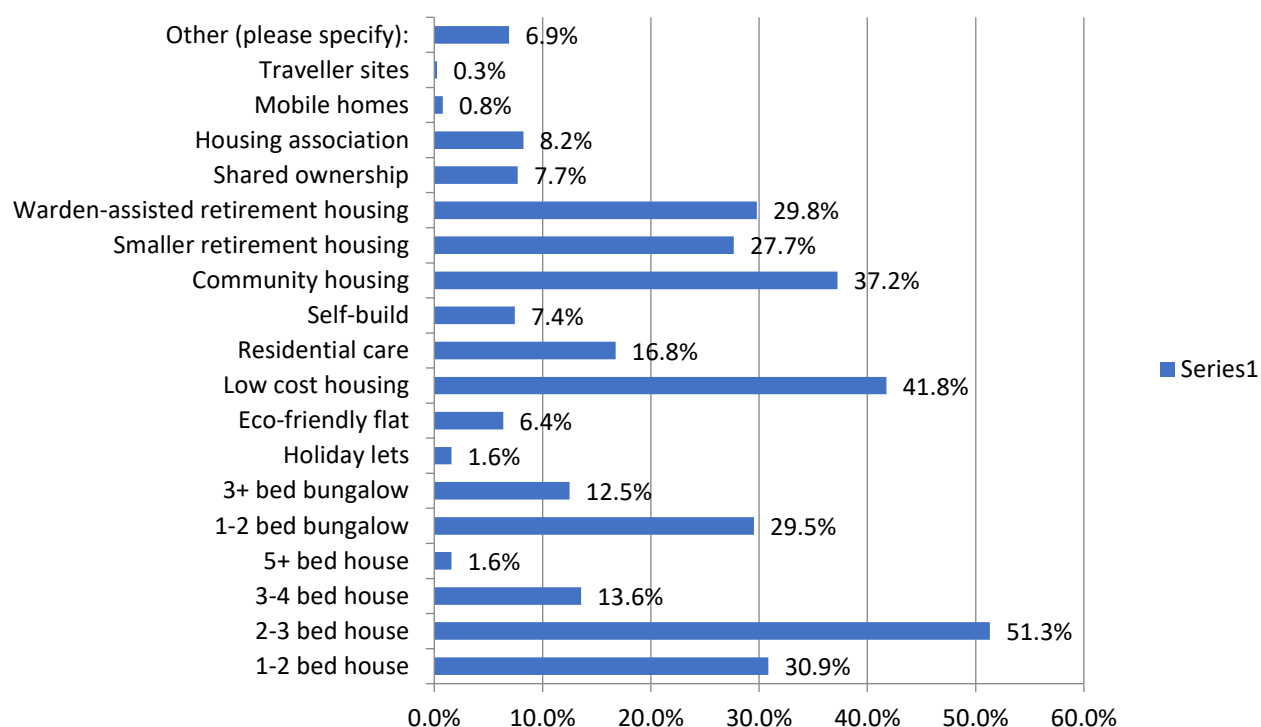

Breaking this down by the four villages gives a slightly clearer picture – bungalows and supported housing ranking highly - perhaps reflecting the age profile of respondents.

| | First choice | Second choice | Third choice |
|----------|------------------------------------|----------------------------|-----------------|
| Grimston | Warden assisted retirement housing | 1-2 bed bungalows | 3-4 bed house |
| Roydon | 1-2 bed bungalows | Smaller retirement housing | 3+ bed bungalow |
| Pott Row | Warden assisted retirement housing | 1-2 bed bungalows | 3+ bed bungalow |
| Congham | 3+ bed bungalow | 1-2 bed bungalows | 2-3 bed house |

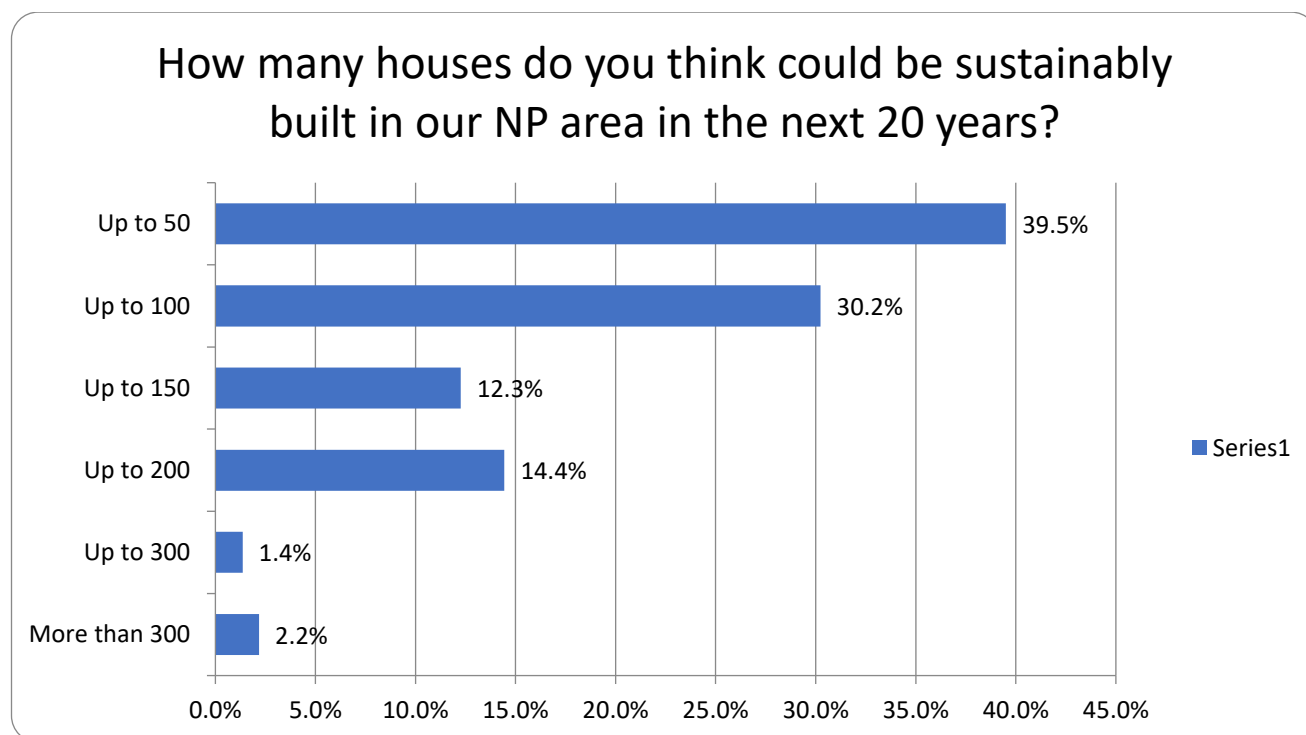

Q3.3: What type of housing do you think is most needed in the village?

Thinking about the needs of others in our villages,
what types of housing do you think are most
needed?

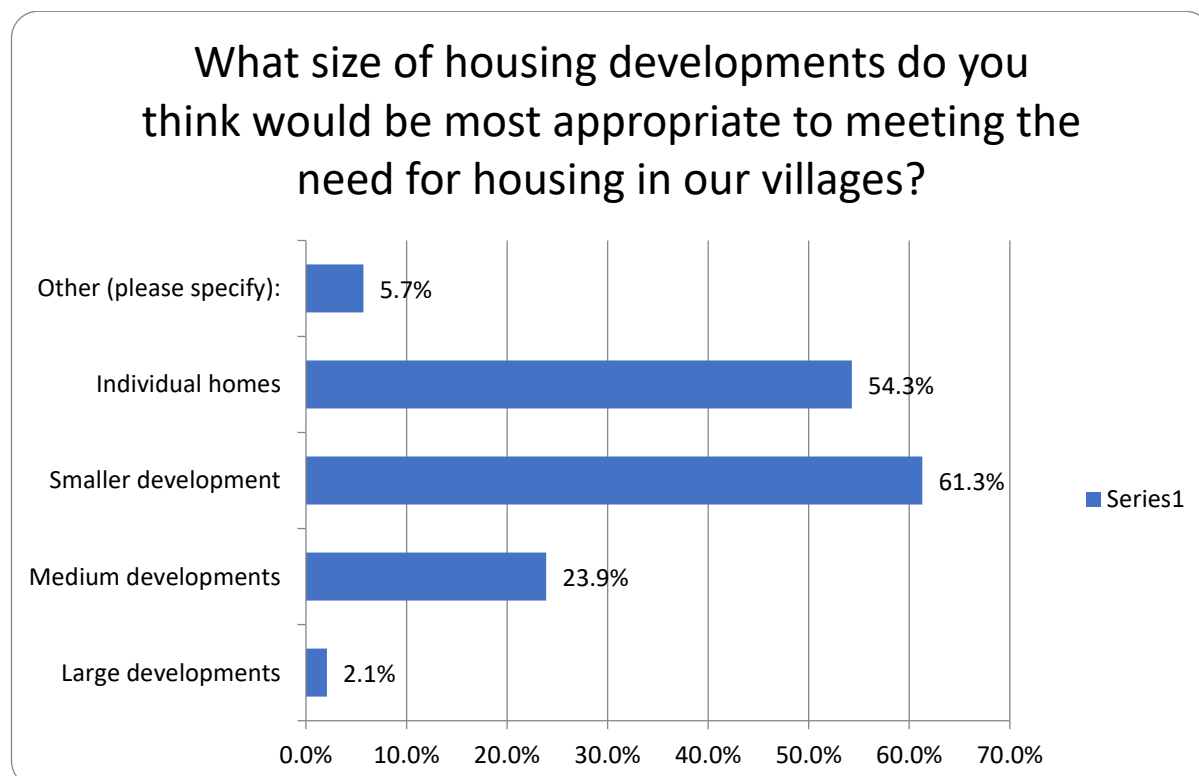

| | First choice | Second choice | Third choice |
|----------|---------------|------------------|-------------------|
| Grimston | 2-3 bed house | Low cost housing | Community housing |
| Roydon | 2-3 bed house | Low cost housing | 1-2 bed house |
| Pott Row | 2-3 bed house | Low cost housing | 1-2 bed house |
| Congham | 2-3 bed house | Low cost housing | 1-2 bed house |

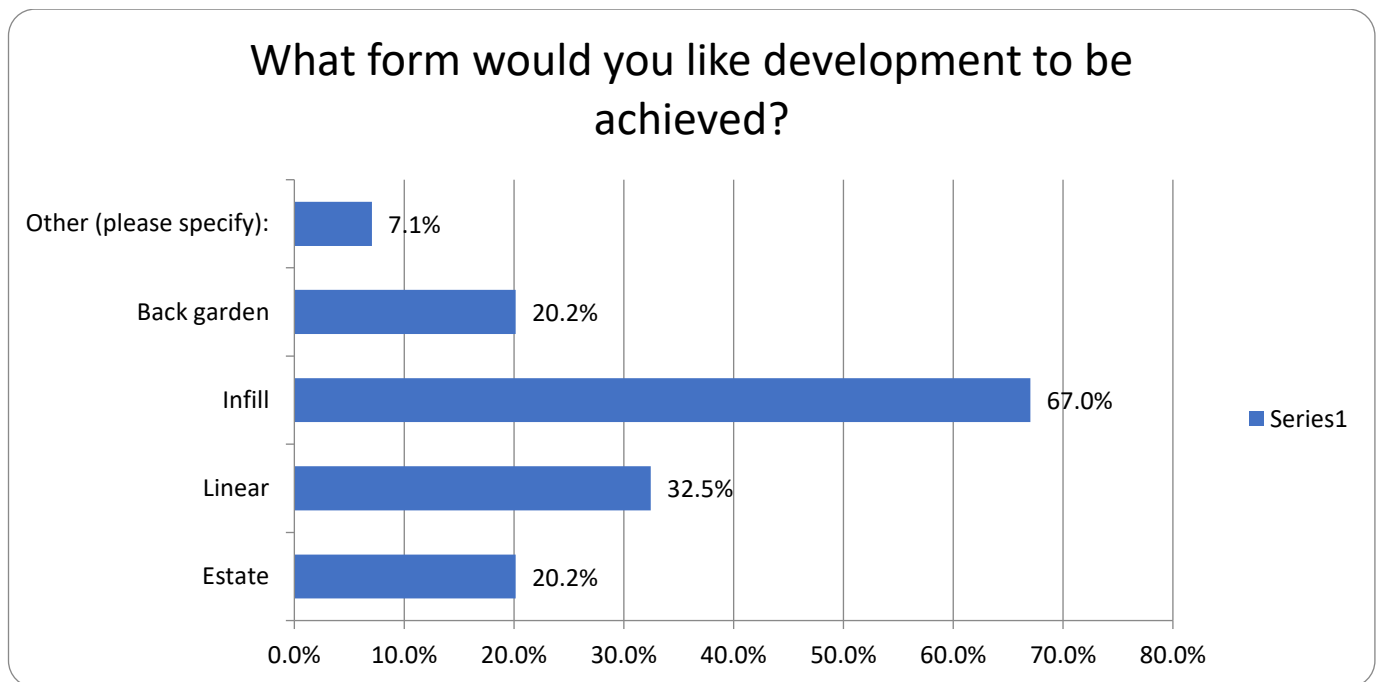

Q3.4: How many houses did respondent think could be sustainably built in the Plan's area, over the next 20 years?

Q3.5: What size of housing developments did people think would be most appropriate to meeting the need for housing in the villages?

Q3.6: In what form did people think this could be achieved?

Q3.7 / 3.8: Just over 75% would support additional childcare services and locating school infrastructure in the villages

Q3.9: What sites did people think should NOT be developed?

Responses to this open question indicate that residents are strongly protective of areas regarded as green space: village greens, commons, woods and fens, allotments as well as green fields or farmland. Specific areas mentioned numerous times included: St Andrews Lane, Low Road Congham, Roydon Crossroads, Station Road, Grimston Cricket field. Cliffe en Howe Road, Chapel Road and fields off Vong Lane were also mentioned several times. Several respondents also stated that the area around Holly Meadows should not be developed in the case the school need to expand or develop facilities.

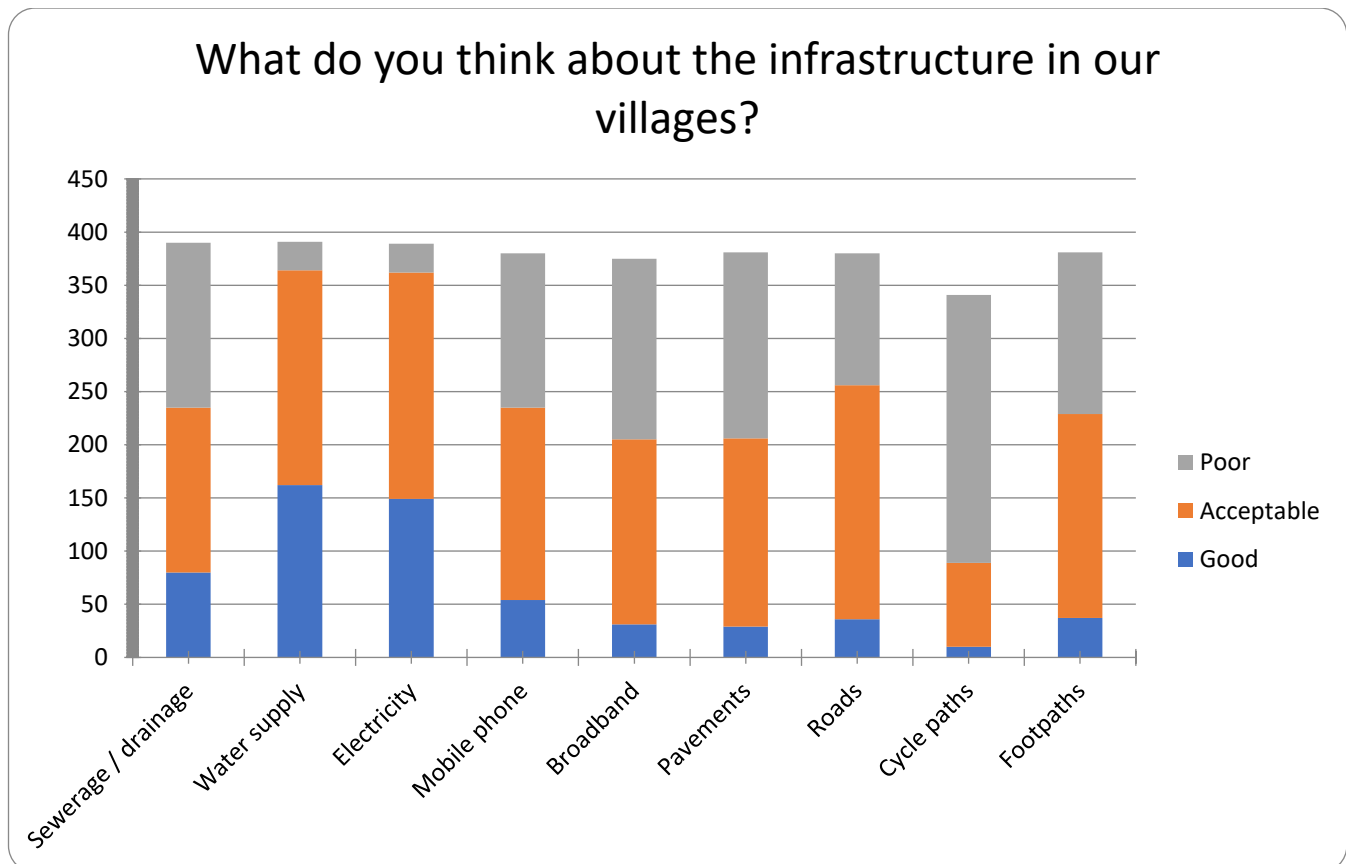

Q3.10: What sites did people think should be developed?

Overall there were less responses to this question with numerous responses stating that there should be no development or just stating Infill or Linear. The top specific location was Vong Lane between Church Close and Gayton Road. Gayton Road was also mentioned several times as well as the school end of Vong Lane. Many said that there should be redevelopment of brownfield sites, those in Leziate Drove were mentioned several times: Poultry Sheds and Spotty Pig Farm. Land on Chapel Road by Chequers Road (Reeds Corner) was mentioned in connection for development as social housing. Land at Hudson Fen was mentioned specifically for the development of leisure facilities only.

Part 4: Infrastructure

Q4.1: Just over 80% of respondents agreed that infrastructure has NOT kept pace with development?

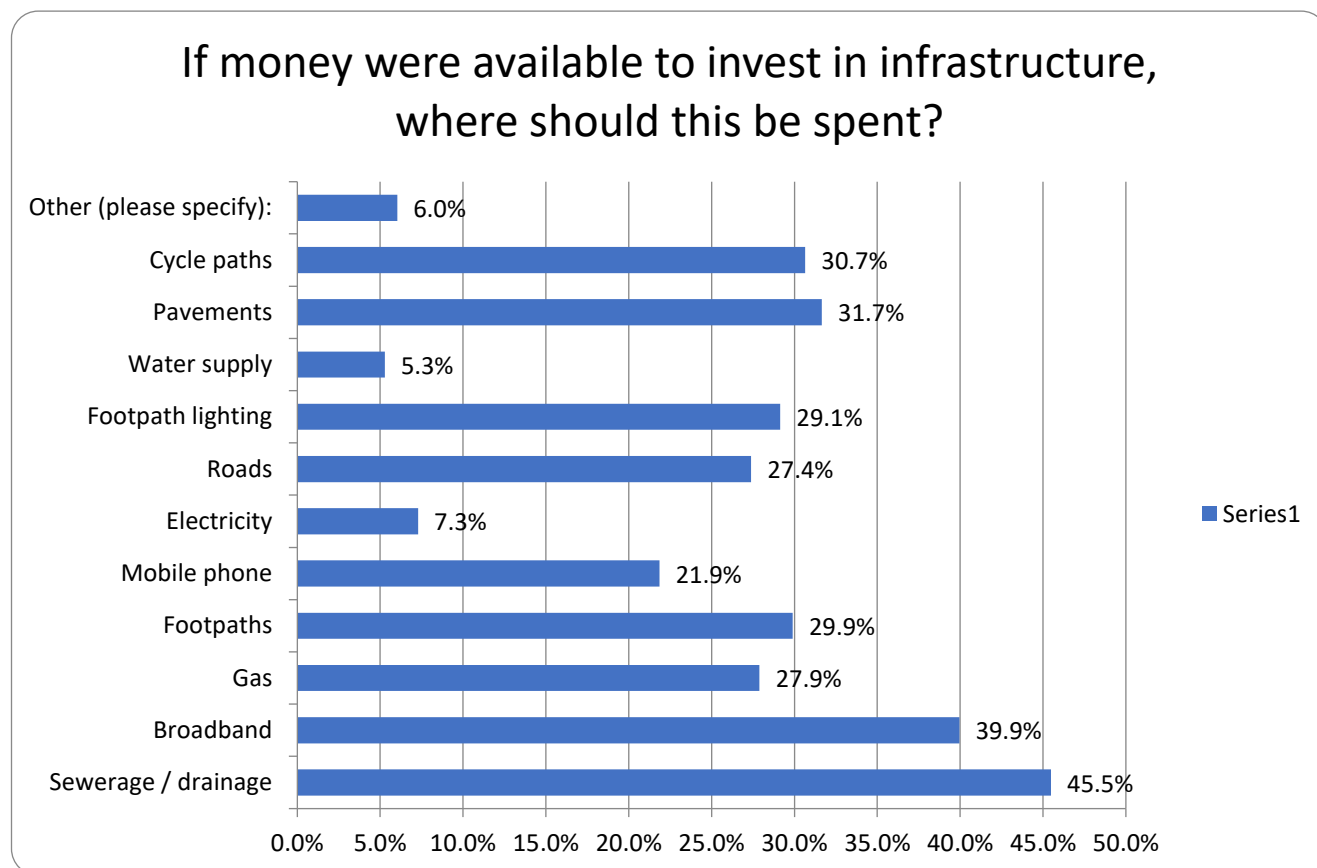

Q4.2: How did people rate the current infrastructure in the villages?

The chart above gives an overview, however it is a complex question, and individual village reports can give a better picture. These are given in the cross-referenced spreadsheet that accompanies this report.

None of the villages were rated highly for good/acceptable with regard to cycle and footpaths. Furthermore, whilst Grimston did score the highest satisfaction with pavements and roads, the numbers were still low, as shown by the more detailed table in the separate Cross Reference report.

Q4.3: If money were available for investment in infrastructure, where did people think it should best be spent?

Part 5: Business & local Economy

Q5.1:

| Should the Neighbourhood Plan allocate land for business use? | | | |
|---|-------------------------|------------------|----------------|
| Answer Choice | | Response Percent | Response Total |
| 1 | Factory / manufacturing | 5.8% | 19 |
| 2 | Food & restaurants | 30.4% | 99 |
| 3 | Light industrial units | 36.2% | 118 |
| 4 | Offices | 16.6% | 54 |
| 5 | Shops and retail | 46.6% | 152 |
| 6 | Starter units | 42.0% | 137 |
| 7 | Tourism business | 30.1% | 98 |
| 8 | Other (please specify): | 16.0% | 52 |
| <i>answered</i> | | | 326 |
| <i>skipped</i> | | | 84 |

This question was skipped by 84 respondents – given that ‘no’ wasn’t an option, it could be taken that this was their answer to the question.

Q5.2: Would people be in favour of the Neighbourhood plan allocating sites for the creation of a business centre?

Most people were moderately or strongly in favour of this option.

Q5.3: Would people be in favour of the Neighbourhood plan developing policies that support a visitor economy?

Most people were moderately or strongly in favour of this option.

| Would you be in favour of the Neighbourhood Plan allocating land for the creation of a business centre providing low-cost, flexible workspaces, meeting rooms and managed services for local start-ups, small enterprises, freelance workers and home workers? | | | |
|--|----------------------|------------------|----------------|
| Answer Choice | | Response Percent | Response Total |
| 1 | Strongly in favour | 23.7% | 92 |
| 2 | Moderately in favour | 50.9% | 19842 |
| 3 | Strongly against | 14.7% | 57 |
| 4 | Moderately against | 10.8% | 42 |
| <i>answered</i> | | | 389 |
| <i>skipped</i> | | | 21 |

Part 6: Transport

Q6.1: What were the most popular forms of transport used by respondents? Overwhelmingly, it was the car. A handful of people caught a bus, and the rest were insignificant in numbers.

Q6.2: What stops people from using other forms of transport?

- The train station is too far away, cycling on the road is perceived as too dangerous and buses either don't go to the required stop, or don't run at times to suit.
- For those using mobility vehicles, poor uneven pavements, with cars parked was a major obstacle. Pavements sloping towards the road, with insufficient dropped kerbs, rubbish bins left on pavements, puddles and narrow pathways were also seen as off putting.

Q6.3: How often did people use buses from their village? For around 70% of those answering, it was never, hardly ever or there was no service.

Q6.5: Were respondents in favour of the neighbourhood plan supporting the creation of better footpaths? People were overwhelmingly in favour of this with only 12 people being against the idea.

Q6.6: Were respondents in favour of the neighbourhood plan supporting the creation of better bridleways and cycle paths? People were overwhelmingly in favour of this with only 20 people being against the idea.

Q6.7: Did people think carparking was a problem in the villages, and if so, where and in what way? Interestingly, this was an even split between agree and disagree. It may be of use to break this down into the village responses, and there were clearly some local 'hot spots' for problem parking. Grimston topped the list as having the worst parking problems, followed by Pott Row, Roydon then Congham.

The biggest hazard of parking was cars parking on pavements, and also obscuring views for oncoming traffic. It made life difficult for people with buggies and mobility scooters, and blocked people's driveways.

Q6.9: Was air pollution seen as a problem, and if so where and in what way? For most, this wasn't perceived as a problem. For those who ticked yes, problems cited were traffic fumes, agricultural spraying/dust and bonfires/wood burners.

Part 7: Treasures and Assets

All the Churches, the Clock Tower and the Three Horseshoes Public House all scored highly as did the Cricket Pavilion. The Methodist Chapel, the Riding School and the Bell were also mentioned as should have been on the list.

Please see the summary reports for the full charts.

Part 8: Business Survey

29 business owners responded:

13 anticipated growth in 5 years, dropping to 8 in ten years.

6 saw the need for extra space in the village at some point, but few had specific requirements. Setting land aside wasn't seen as needed by the majority, and the infrastructure was adequate for 17 out of the 20.

There were frustrations however with slow broadband and mobile signal.

End of report.

Appendices

Appendix 1: Summary of Survey showing the combined data from all four villages.

Page 1

| 1. Village | | | | |
|------------|----------|---|------------------|----------------|
| | | | Response Percent | Response Total |
| 1 | Grimston |  | 35.07% | 141 |
| 2 | Roydon |  | 20.40% | 82 |
| 3 | Pott Row |  | 24.88% | 100 |
| 4 | Congham |  | 19.65% | 79 |
| | | | answered | 402 |
| | | | skipped | 8 |

| 2. Age | | | | |
|--------|----------|---|------------------|----------------|
| | | | Response Percent | Response Total |
| 1 | Under 16 |  | 0.26% | 1 |
| 2 | 17-24 |  | 1.28% | 5 |
| 3 | 25-40 |  | 7.65% | 30 |
| 4 | 41-64 |  | 42.09% | 165 |
| 5 | 65+ |  | 48.72% | 191 |
| | | | answered | 392 |
| | | | skipped | 18 |

| 3. Length of time lived in the village | | | | |

| 7 | Safe |  | 85.43% | 346 |
| 8 | Traditional |  | 48.15% | 195 |
| 9 | Tranquil |  | 49.14% | 199 |
| 10 | Vibrant |  | 9.38% | 38 |
| | | | answered | 405 |

8. How would you like the villages described in 20 years' time?

| | Response Percent | Response Total |
|--|------------------|----------------|
| | skipped | 5 |

9. What do you think the biggest benefits development could bring to our villages are?

| | | | Response Percent | Response Total |
|----|--|---|------------------|----------------|
| 1 | A community with a balance of ages and incomes |  | 47.99% | 191 |
| 2 | Broadband speeds |  | 33.92% | 135 |
| 3 | Facilities & services for young people |  | 17.59% | 70 |
| 4 | Land for recreation |  | 25.13% | 100 |
| 5 | Local jobs and businesses |  | 10.30% | 41 |
| 6 | Mobile phone coverage |  | 14.32% | 57 |
| 7 | Protection of the countryside & local assets |  | 51.51% | 205 |
| 8 | Safe cycle routes |  | 19.10% | 76 |
| 9 | Schools & childcare |  | 15.33% | 61 |
| 10 | Transport links |  | 33.67% | 134 |
| 11 | Village identity & a sense of community |  | 36.68% | 146 |
| 12 | Air quality |  | 14.07% | 56 |
| 13 | Energy production |  | 1.01% | 4 |
| 14 | Investment in infrastructure |  | 24.62% | 98 |
| 15 | Leisure facilities |  | 8.79% | 35 |
| 16 | Medical & care facilities |  | 45.48% | 181 |
| 17 | Parking |  | 4.02% | 16 |
| 18 | Rental properties |  | 2.26% | 9 |
| 19 | Safe pedestrian routes |  | 21.86% | 87 |

9. What do you think the biggest benefits development could bring to our villages are?

| | | | Response Percent | Response Total |
|----|-------------------------|---|------------------|----------------|
| 20 | Shops & services |  | 26.38% | 105 |
| 21 | Variety of housing |  | 14.57% | 58 |
| 22 | Other (please specify): |  | 15.58% | 62 |
| | | | answered | 398 |
| | | | skipped | 12 |

10. What worries you about the impact of further development in our villages?

| | | | Response Percent | Response Total |
|----|--|---|------------------|----------------|
| 1 | A weaker sense of community |  | 21.78% | 88 |
| 2 | Expansion targeted only at people on high incomes |  | 24.50% | 99 |
| 3 | Increased traffic |  | 73.27% | 296 |
| 4 | Lack of adequate parking |  | 15.59% | 63 |
| 5 | Loss of countryside / green space between existing settlements |  | 68.81% | 278 |
| 6 | No obvious centre to our villages |  | 8.66% | 35 |
| 7 | Overstretched local amenities |  | 29.46% | 119 |
| 8 | Reduction in amount of green space |  | 37.87% | 153 |
| 9 | Unsafe cycle routes |  | 8.42% | 34 |
| 10 | Air quality |  | 9.41% | 38 |
| 11 | Increase in crime & anti-social behaviour |  | 40.59% | 164 |
| 12 | Insufficient sports & leisure facilities |  | 6.68% | 27 |
| 13 | Lack of school/childcare places |  | 19.06% | 77 |
| 14 | Overloaded sewerage & drainage |  | 42.33% | 171 |
| 15 | Oversubscribed medical & care facilities |  | 50.99% | 206 |

| 10. What worries you about the impact of further development in our villages? | | | | |
|---|----------------------------|---|------------------|----------------|
| | | | Response Percent | Response Total |
| 16 | Undermine local businesses |  | 2.48% | 10 |
| 17 | Unsafe pedestrian routes |  | 8.91% | 36 |
| 18 | Other (please specify): |  | 9.65% | 39 |
| | | | answered | 404 |
| | | | skipped | 6 |

| 11. What single change would most improve your quality of life as a resident? | | | | |
|---|---------------------|--|------------------|----------------|
| | | | Response Percent | Response Total |
| 1 | Open-Ended Question | | 100.00% | 260 |
| | | | answered | 260 |
| | | | skipped | 150 |

Rural Community

| 12. Our villages are a community at the heart of rural West Norfolk. A rural feel and access to the countryside is fundamental not only to our quality of life and community identity, but also to many aspects of our economy. | | | | |
|---|----------|--|------------------|----------------|
| | | | Response Percent | Response Total |
| 1 | Agree |  | 99.49% | 393 |
| 2 | Disagree |  | 0.51% | 2 |
| | | | answered | 395 |
| | | | skipped | 15 |

| 13. How important do you think it is that these individual villages should remain physically separate from each other to maintain their identity? | | | | |
|---|----------------|----------------|---------------|----------------|
| | Essential | Important | Unimportant | Response Total |
| Grimston | 40.5% (151) | 37.3% (139) | 22.3% (83) | 373 |
| Roydon | 39.8% (148) | 37.6% (140) | 22.6% (84) | 372 |
| Pott Row | 37.7% (141) | 39.0% (146) | 23.3% (87) | 374 |
| Congham | 46.7% (176) | 32.4% (122) | 21.0% (79) | 377 |
| | | | answered | 398 |
| | | | skipped | 12 |

Services

| 14. What services or amenities do you think are lacking | | | | |
|---|---------------------|--|------------------|----------------|
| | | | Response Percent | Response Total |
| 1 | Open-Ended Question | | 100.00% | 307 |
| | | | answered | 307 |
| | | | skipped | 103 |

| 15. What clubs, sports, leisure and playground facilities do you use in our villages? | | | | |
|---|---------------------|--|------------------|----------------|
| | | | Response Percent | Response Total |
| 1 | Open-Ended Question | | 100.00% | 309 |
| | | | answered | 309 |
| | | | skipped | 101 |

| 16. What clubs, sports, leisure and playground facilities do you use outside our villages? | | | |
